SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier	
	Product name	Black Toner for
		P-4020DN, P-4020DW
	Consumable name	PK-1011
	Product form	Mixture
1.2	Relevant identified u	ses of the substance or mixture and uses advised against
	Identified uses	The image formation of our electrophotographic equipment. Other uses are not recommended.
1.3	Details of the supplie	er of the safety data sheet
	Manufacturer	KYOCERA Document Solutions Inc.
	Address	1-2-28 Tamatsukuri, Chuo-ku, Osaka 540-8585, Japan
	Supplier	TA Triumph-Adler GmbH
	Address	Deelbögenkamp 4c 22297 Hamburg Germany
1.4	Emergency telephon	ne number +49 (0) 40 / 528490 (This number is available only during office hours)
SECT	ION 2: Hazards identif	ication
2.1	Classification of the	substance or mixture
2.1		
	Classification accord	ding to Regulation (EC) No 1272/2008 (CLP)
1		Not classified as bazardous mixture

Not classified as hazardous mixture.

2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 (CLP) Not applicable.

2.3 Other hazards

Assessment of PBT/vPvB

No data available.

See section 4 and 11 for information on health effects and symptoms. See section 9 for dust explosion information.

4.2	Most important symptoms and effects, both acute and delayed		
	Potential health effects and symptoms		
	Inhalation:	Prolonged inhalation of excessive dusts may cause lung damage. Use of this product as intended does not result in prolonged inhalation of excessive toner dusts.	
	Skin contact: Unlikely to cause skin irritation.		
	Eye contact:	May cause transient eye irritation.	
	Ingestion:	Use of this product as intended does not result in ingestion.	
4.3	Indication of any immediate medical attention and special treatment needed		
	No additional information available.		

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Water spray, foam, powder, CO₂ or dry chemical

Unsuitable extinguishing media

None specified.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products: Carbon dioxide, Carbon monoxide

5.3 Advice for firefighters

Fire-fighting procedures

Pay attention not to blow away dust. Drain water off around and decrease the atmosphere temperature to extinguish the fire.

Protection equipment for firefighters

None specified.

SECTION 6: Accidental release measures

6.1	Personal precautions, protective equipment and emergency procedures
	Avoid inhalation, ingestion, eye and skin contact in case of accidental release. Avoid formation of dust. Provide adequate ventilation.
6.2	Environmental precautions
	Do not allow to enter into surface water or drains.
6.3	Methods and material for containment and cleaning up
	Gather the released powder not to blow away and wipe up with a wet cloth.

02

according to Regulation (EC) No 1907/2006 (REACH)

26/08/2021

PK1011-TA-UT-02-EN

Ir	nformation on basic physical and chem	nical properties	
	Appearance		
	Physical state	Solid (fine powder)	
	Colour	Black	
	Odour	Odourless	
	Odour threshold	No data available.	
	рН	No data available.	
	Melting point [°C]	100-120 (Toner)	
	Boiling point	No data available.	
	Flash point	No data available.	
	Evaporation rate	No data available.	
	Flammability (solid, gas)	No data available.	
	Upper flammability or explosive limit	No data available.	
	Lower flammability or explosive limit	No data available.	
	Vapour pressure	No data available.	
	Vapour density	No data available.	
	Relative density [g/cm ³]	1.5-1.8 (Toner)	
	Solubility (ies)	Almost insoluble in water.	
	Partition coefficient: n-octanol/water	No data available.	
	Auto-ignition temperature	No data available.	
	Decomposition temperature	No data available.	
	Viscosity	No data available.	
	Explosive properties	No data available.	
	Oxidizing properties	No data available.	

9.2 Other information

Dust explosion properties

Dust explosion is improbable under normal intended use. Experimental explosiveness of toner is classified into the same rank such kind of powder as flour, dry milk and resin powder according to the pressure rising speed.

11.1 Information of ingredients:

No mutagen according to MAK, TRGS905 und (EC) No 1272/2008 Annex VI.

Carcinogenicity

Safety Data Sheet

Information of ingredients:

No carcinogen or potential carcinogen (except Titanium dioxide) according to IARC, Japan Association on Industrial Health, ACGIH, EPA, OSHA, NTP, MAK, California Proposition 65, TRGS 905 and (EC) No 1272/2008 Annex VI.

The IARC re-evaluated Titanium dioxide as a Group 2B carcinogen (possibly carcinogenic to humans) as the result of inhalation exposure tests in rats. But, oral/skin test does not show carcinogenicity (2). In the animal chronic inhalation studies for Titanium dioxide, the lung tumour was observed only in rats. It is estimated that this is attributed to the overload of rat's lung clearance mechanism (overload phenomenon) (3). The inhalation of excessive Titanium dioxide does not occur in normal use of this product. Also, epidemiological studies to date have not revealed any evidence of the relation between occupational exposure to Titanium dioxide and respiratory tract diseases.

Reproductive toxicity

Information of ingredients:

No reproductive toxicant according to MAK, California Proposition 65, TRGS 905 und (EC) No 1272/2008 Annex VI.

STOT-single exposure No data available.

STOT-repeated exposure No data available.

Aspiration hazard No data available.

Chronic effects

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animal in the middle (4mg/m³) exposure group (1). But no pulmonary change was reported in the lowest (1mg/m³) exposure group, the most relevant level to potential human exposures.

Other information

No data available.

SECTION 12: Ecological information

12.1 Toxicity

No data available.

- 12.2 Persistence and degradability No data available.
- 12.3 Bio accumulative potential
 - No data available.
- 12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

- 12.6 Other adverse effects
 - No additional information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Do not attempt to incinerate the toner container or unit and the waste toner yourself. Dangerous sparks may cause burn. Any disposal practice should be done under conditions which meet local, state and federal laws and regulations relating to waste (contact local or state environmental agency for specific rules).

SECTION 14: Transport information

14.1 UN-number

None.

14.2 UN Proper shipping name

None.

14.3 Transport hazard class(es)

None.

14.4 Packing group

None.
