GREAT SYSTEMS COME IN SMALL PACKAGES.

Printing, copying, scanning, faxing – quickly and efficiently! In superb quality and brilliant colour reproduction. Small in stature but big on performance, embracing the latest technology. Intuitive and easy to operate with buttons that are readily to hand. And, these buttons are easy to find: on the easy-to-understand LCD control panel of the P-C2155w MFP or the colour touch screen of the P-C2655w MFP. That's how you get to its inner qualities! However, it's easy to gain access in other ways too – via a network, Wi-Fi or USB connection. Even mobile devices get along perfectly with these two systems that certainly punch above their weight.

HIGHLIGHTS:

Exceptionally good: A high print resolution of up to 1,200 x 1,200 dpi delivers outstanding print quality, while a 50-sheet original feeder, a maximum paper capacity of 550 sheets, an integrated fax system and a wide variety of functions make these two multi-function devices stand out from the majority of workplace systems.

Particularly functional: With the P-C2155w MFP and P-C2655w MFP, you're well prepared for every situation as even if the colour toner runs out in the middle of a print job, your job can still be finished in black and white (prints up to around 30 pages) – with a remarkable 21 (P-C2155w MFP) or 26 (P-C2655w MFP) A4 pages per minute. The systems are capable of quickly scanning up to 30 black and white and 23 colour pages per minute. Here, useful functions such as Skip blank pages and ID card copy help you save paper and therefore valuable resources. And, if you ever need a little more quiet in the office, help is on offer here too with the 'Quiet mode' function. Once activated, the MFP continues to work for you quite unobtrusively in the background.

Especially convenient: The clearly laid out LCD control panel of the P-C2155w MFP and colour touch screen of the P-C2655w MFP show how easy it is these days to get to grips with multifunctionality and multitasking. The standard original feeder is just as convenient (the P-C2655w MFP also features duplex scanning in a single operation). It even fully automatically processes small-format templates in A6R format such as prescriptions and cheques, directly from the paper cassette.

Very mobile: Naturally, you have mobile access to the P-C2155w MFP and P-C2655w MFP as both systems are also equipped with a Wi-Fi interface as standard. This means you can also access the MFP from a smartphone or tablet (sharing the same network), thanks to the free Mobile Print app. Despite these options, the highest security standards are maintained, such as when printing confidential data with the 'Private printing' function, using authentication (locally or via the network) or a card reader with chip card*, for example.
