Black & white printing: reliable, efficient, fast.

Today's world is dominated by the wide array of colours that form it. But a large amount of office work calls for black & white – and it could be done with much greater efficiency and productivity. Take the new A3 b/w P-6040DN system for example. It processes high volumes of delivery notes, invoices or even labels at a speed of 60 A4 pages per minute. It also has a paper capacity of up to 7,150 sheets and prints at a resolution of 1,200 x 1,200 dpi, ensuring consistently high-quality, crystal-clear prints

HIGHLIGHTS:

High performance: The P-6040DN's high print resolution, fast print rate of 60 A4 pages per minute, 9 inch touch panel for simple operation, USB port, 320 GB hard disk, 4,000 sheets optional finisher, maximum paper capacity of 7,150 sheets and capability to process paper in sizes up to SRA3 format mean its more than capable for even large complex jobs

Robust: The system has a long service life and easily processes a wide range of different print media and paper thicknesses. It has fewer moving parts as it only prints in monochrome. This makes it a sturdy and stable workhorse you can always rely on.

Consistent: Thanks to its high print resolution and optimised toner, the system reliably delivers a consistently high print quality. Its vast paper capacity guarantees uninterrupted production runs. Its easy-to-use, large touch panel keeps things simple and allows you to keep your cool under pressure, thanks to its intuitive operation.

Expandable: The new system can also be adapted to even the most specific requirements and individual demands. It offers a wide range of output options, such as a job separator, an output tray and brochure module and, of course, various finishers that make time-consuming work a thing of the past. The impressive stapler, which can process up to 65 pages in one go.

UTAX has been a trade mark for professional office technology since 1961. As the partner of a German wide dealer network and international distribution, we are specialised in the distribution and integration of printing, copying and multifunctional systems in corporate IT and public sector, amongst others. With the MDS solution UTAX smart for example, output systems can be controlled regardless of the manufacturer and the infrastructure can be optimised in line with demands. UTAX recommends the use of original UTAX accessories for trouble-free operation of your system. For recommended print media refer to the user manual. UTAX and the UTAX logo are registered trade marks of TA Triumph-Adler GmbH. All other brand names referred to are registered trade marks of the respective manufacturers.
